

EHAR – Pioneers of STAG Metal

Majestic, powerful, primal – the music of a stag on a journey

EHAR creates its own musical universe: **STAG Metal**. Inspired by the symbolism of the stag, this genre represents strength, vulnerability, and the eternal cycle of struggle and renewal. Listening to EHAR is a journey through light and shadow, combining heavy, crushing riffs with atmospheric, melancholic passages.

Who We Are

Founded in the heart of the Black Forest, EHAR consists of Chris (vocals & guitar), Andi (guitar), Tim (bass), and Philip (drums). The band merges raw energy with emotional depth, crafting each song like a walk through misty forests: majestic, mysterious, and intense

Our Music

EHAR's music is not just a genre – it is **STAG Metal** – a blend of power, ritual, and a deep connection to nature. The lyrics explore inner struggles, reflection, and emotional journeys, while the instrumentation gives listeners space to immerse themselves in the band's sonic landscapes.

“Like a stag walking through the mist, our music moves between light and darkness.”
